India's rank among bio-diversified nations

†2471. SHRI MANGANI LAL MANDAL: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that India figures amongst seven most bio-diversified nations of the world;

(b) whether it is also a fact that the balance between flora and fauna is getting disturbed in the country;

(c) whether due to lack of effective action to conserve the environment so far, the various species of flora and fauna are on the verge of extinction; and

(d) if so, the details in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT AND FORESTS (SHRI NAMO NARAIN MEENA): (a) India is one of the identified Megadiverse countries of the world.

(b) The Government is not aware of any such report indicating that balance between flora and fauna is getting disturbed in the country.

(c) and (d) It is a fact that the Biodiversity is under pressure due to various factors like pollution, poaching and other biotic pressure leading to decline in richness of a number of species. These issues are addressed at different levels through schemes such as National Parks, Sanctuaries and Biosphere Reserves for *in-situ* conservation of Biodiversity and through Regional Botanical Gardens and Gene Banks for *ex-situ* conservation.

Permission to companies for mining **in Fifth Schedule areas**

2472. SHRIMATI BRINDA KARAT: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) how many permissions have been given to companies for various works including mining in Fifth Schedule areas since the formation of present Government; and

(b) the details of companies and the States where such permission has been given?

† Original notice of the question was received in Hindi.
